

## India PCB Tech conference

“Importance of a robust supply chain and value addition to strengthen the PCB sector in India.”

The supporting program for electronica India 2019 will be finalized in summer 2019. In the meantime you may check the supporting program of electronica India 2018 below.

‘India PCB Tech’ is a joint initiative by ELCINA and Messe Muenchen India, and is supported by IPCA, to bring the entire PCB industry eco-system and related supply chain together. The policy makers, manufacturers as well as various stakeholders will exchange valuable information on market and technology trends, technical skills, policies, for enabling success and growth of PCB manufacturing and assembly sector. It will also showcase the PCB technologies from the best manufacturers and their suppliers from across the globe.

<b>Date:</b>	September 27, 2018
